

MolProbity Ramachandran analysis

1yq2.B99990007.pdb, model 1

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.

There were 50 outliers (90% outliers).

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.

Outliers (100% outliers) of all residues were in favored (90%) regions.

Outliers (100% outliers) of all residues were in allowed (100%) regions.
